

## Underwriting Pools

### SCOPE OF STATEMENT

1. This statement establishes statutory accounting principles for underwriting pools and associations.

### SUMMARY CONCLUSION

2. Underwriting pools and associations can be categorized as follows: (a) involuntary, (b) voluntary, and (c) intercompany.

3. Involuntary pools represent a mechanism employed by states to provide insurance coverage to those with higher than average probability of loss who otherwise would be excluded from obtaining coverage. Reporting entities are generally required to participate in the underwriting results, including premiums, losses, expenses, and other operations of involuntary pools, based on their proportionate share of similar business written in the state. Involuntary plans are also referred to as residual market plans, involuntary risk pools, and mandatory pools.

4. Voluntary pools are similar to involuntary pools except they are not state mandated and a reporting entity participates in the pool voluntarily. In addition, voluntary pools are not limited to the provision of insurance coverage to those with higher than average probability of loss, but often are used to provide greater capacity for risks with exceptionally high levels of insurable values (e.g., aircraft, nuclear power plants, refineries, and offshore drilling platforms).

5. Intercompany pooling relates to business which is pooled among affiliated entities who are party to a pooling arrangement.<sup>(INT 03-02)</sup>

6. Participation in a pool may be on a joint and several basis, i.e., in addition to a proportional share of losses and expenses incurred by the pool, participants will be responsible for their share of any otherwise unrecoverable obligations of other pool participants. In certain instances, one or more entities may be designated as servicing carriers for purposes of policy issuance, claims handling, and general administration of the pooled business, while in other cases a pool manager or administrator performs all of these functions and simply bills pool participants for their respective shares of all losses and expenses incurred by the pool. In either case, liabilities arising from pooled business are generally incurred on a basis similar to those associated with non-pooled business, and should therefore be treated in a manner consistent with the guidelines set forth in *SSAP No. 5R—Liabilities, Contingencies and Impairments of Assets* (SSAP No. 5R).

7. Intercompany pooling arrangements involve establishment of a conventional quota share reinsurance agreement under which all of the pooled business is ceded to the lead entity and then retroceded back to the pool participants in accordance with their stipulated shares. Arrangements whereby there is one lead company that retains 100% of the pooled business and all or some of the affiliated companies have a 0% net share of the pool may qualify as intercompany pooling. In these arrangements, only the policy issuing entity has direct liability to its policyholders or claimants; other pool participants are liable as reinsurers for their share of the issuing entity's obligations. Although participants may use different assumptions (e.g., discount rates) in recording transactions, the timing of recording transactions shall be consistently applied by all participants.

8. Underwriting results relating to voluntary and involuntary pools shall be accounted for on a gross basis whereby the participant's portion of premiums, losses, expenses, and other operations of the pools are recorded separately in the financial statements rather than netted against each other. Premiums and losses shall be recorded as direct, assumed, and/or ceded as applicable. If the reporting entity is a direct writer of the business, premiums shall be recorded as directly written and accounted for in the same

manner as other business which is directly written by the entity. To the extent that premium is ceded to a pool, premiums and losses shall be recorded in the same manner as any other reinsurance arrangement. A reporting entity who is a member of a pool shall record its participation in the pool as assumed business as in any other reinsurance arrangement.

9. Underwriting results relating to intercompany pools shall be accounted for and reported as described in paragraph 8. While it is acceptable that intercompany pooling transactions be settled through intercompany arrangements and accounts, intercompany pooling transactions shall be reported on a gross basis in the appropriate reinsurance accounts consistent with other direct, assumed and ceded business.

10. Equity interests in, or deposits receivable from, a pool represent cash advances to provide funding for operations of the pool. These are admitted assets and shall be recorded separately from receivables and payables related to a pool's underwriting results. Receivables and payables related to underwriting results shall be accounted for in accordance with the guidance in paragraphs 6-8. If it is probable that these receivables are uncollectible, any uncollectible amounts shall be written off against operations in the period such determination is made. If it is reasonably possible a portion of the balance is uncollectible but is not written off, disclosure requirements outlined in SSAP No. 5R shall be followed.

### Disclosures

11. If a reporting entity is part of a group of affiliated entities which utilizes a pooling arrangement under which the pool participants cede substantially all of their direct and assumed business to the pool, the financial statements shall include:

- a. A description of the basic terms of the arrangement and the related accounting;
- b. Identification of the lead entity and of all affiliated entities participating in the intercompany pool (include NAIC Company Codes) and indication of their respective percentage shares of the pooled business;
- c. Description of the lines and types of business subject to the pooling agreement;
- d. Description of cessions to non-affiliated reinsurers of business subject to the pooling agreement, and indication of whether such cessions were prior to or subsequent to the cession of pooled business from the affiliated pool members to the lead entity;
- e. Identification of all pool members which are parties to reinsurance agreements with non-affiliated reinsurers covering business subject to the pooling agreement and which have a contractual right of direct recovery from the non-affiliated reinsurer per the terms of such reinsurance agreements;
- f. Explanation of any discrepancies between entries regarding pooled business on the assumed and ceded reinsurance schedules of the lead entity and corresponding entries on the assumed and ceded reinsurance schedules of other pool participants;
- g. Description of intercompany sharing, if other than in accordance with the pool participation percentage, of the Provision for Overdue Reinsurance (Schedule F, Part 8) and the write-off of uncollectible reinsurance;
- h. Amounts due to/from the lead entity and all affiliated entities participating in the intercompany pool as of the balance sheet date.

12. Refer to the Preamble for further discussion regarding disclosure requirements.

**Effective Date and Transition**

13. This statement is effective for years beginning January 1, 2001. A change resulting from the adoption of this statement shall be accounted for as a change in accounting principle in accordance with *SSAP No. 3—Accounting Changes and Corrections of Errors*.
